

WESTERN ONT. CHAPTER PRESENTS:

Photowatt Ontario Inc.
(A Division of ATS, Automation Tooling Systems)

PLANT TOUR & DINNER MEETING

Thursday, December 1st, 2011
Tour - 4:00 pm / Cocktails & Dinner - 6:00 pm

TOUR: PHOTOWATT ONTARIO INC. (Div. of ATS) Host: Chris Waters
4:00 pm 730 Fountain Street N., Cambridge, Ontario - Building #2 (519) 650-6535
(see attached directions)

Photowatt Ontario Inc. is a subsidiary of ATS Automation Tooling Systems Inc. that offers turnkey solar project development, installation and solar products. The company recently began production of Photovoltaic (PV) modules on a new 100MW line at the ATS campus. The "Made in Ontario" production will meet rapidly growing Ontario demand from residential, commercial and industrial markets as well as large-scale solar fields. The world-class line was designed and built by ATS's automation division.

COCKTAILS & DINNER: CAMBRIDGE HOTEL & CONFERENCE CENTRE - Dorset Room
6:00 pm 700 Hespeler Road, Cambridge, Ontario Tel: (519) 622-1505
(see attached directions and map)

SPEAKER: DOES YOUR COMPANY FIT WITH F.I.T. - Ontario's Solar PV Program?
7:30 pm By: Helen Plastis, Executive Vice President, Sky Solar (Canada) Ltd.
Helen's presentation is designed to provide key information on the opportunities available under the Ontario Power Authority's FIT program. She will cover developments in the industry, status of the program review currently underway and the value of installing rooftop solar for companies in the manufacturing and processing sectors.
